NEW DELHI 3 (INDIA);

The 8th August 1949.

S. P. JAIN,

for Registrar General, India.

# NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

**TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT**

Births and deaths from principal diseases in towns with a population of over 30,000 in the Provinces of India and some of the Indian States for the week ending the 16th July 1949.

Explanation of symbols used :—

B=Births ; B.R.=Birth rate ; C=Cholera ; S=Smallpox ; P=Plague ; F=Fevers ; D.D.=Dysentery and Diarrhoea , R. D.=Respiratory diseases ; D.R.=Death rate.

## REMARKS

The figures of births and deaths shown in this statement for the week ending the 16th July, 1949 relate to 171 towns with an estimated population of 22,680 thousands. The total number of towns is 213 and their population is 25,943 thousands. Thus 80% of the total number of towns representing 87% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 13,230 and 8,227 representing birth and death rates of 30.3 and 18.9 per thousand of the population respectively.

(A) *Indian Provinces*.—The data here relate to 159 towns with an estimated population of 21,181 thousands. The total number of towns is 189 and their population is 23,320 thousands. Thus 84% of the total number of towns representing 91% of the total population is covered. The number of births and deaths recorded in these towns were 12,386 and 7,800 representing birth and death rates of 30.4 and 19.1 per thousand

and of the population respectively. The table at the end gives the position by provinces. Malegaon in Bombay Province was the only town which had a high death rate of 53.3 per thousand of the population. In the town there were a fair large number of deaths from fever and dysentery & diarrhoea in addition to deaths from cholera.

(B) *Unions and States*.—The data here relate to towns with an estimated population of 1,499 thousands. The total number of towns is 24 and their population 2,623 thousands. Thus 50% of the total number of towns representing 57% of the total population is covered. The number of births and deaths recorded in these towns were 844 and 427 representing birth and death rates of 29.3 and 14.8 per thousand of the population respectively. No town recorded a high death rate of 50 or over per thousand of the population.
